

SOHO NATURE TOUCH CLASS®

description

Uncoated premium quality papers and boards made with E.C.F. pulp, FSC® certified, with a smooth surface. Exceptional look-through and clarity. Available in White shade.

The special Touch Class® treatment ensures resistance to fingerprints, varnishes, oils and water and, on the one hand, ensures perfect printing results with digital varnishes and foils (Scodix® technology and similar). On the other hand, it allows use in applications requiring high resistance to handling, such as printing menus in the catering sector.

Soho Nature Touch Class® can be printed in offset UV, digital dry toner and HP Indigo technology.

notes

The product is completely biodegradable and recyclable. Special runs available upon request. Depending on the type of toner (liquid or dry from different manufacturers), and independently from the kind of paper in use, we recommend to run preliminary tests and possibly verify with the machine supplier which is the most suitable serie of varnish to run the job.

The Company reserves the right to modify the technological features of the product in relation to market requirements.
